First quarter revenue and Interim Management Statement

In my statement in the announcement of our results for the year ended 30th June 2014 which was released on 23rd July 2014, we indicated that our first quarter's trading had started well. We are now able to report a record first quarter revenue of £101m (previous year: £79m) with good growth in the Far East.

The trend is expected to continue into the second quarter.

More information on the first quarter's trading will be given in the Interim Management Statement to be released on 16th October prior to our AGM to be held that day.
