

Renishaw plc

20 April 2026

Upgrade to FY2026 guidance

Since our H1 results announcement on 11 February, we have seen particularly strong demand from customers in the semiconductor and electronics manufacturing equipment, and aerospace & defence sectors, with a further substantial expansion of our order book.

We are actively managing the challenges and increasing costs imposed by ongoing economic and geopolitical uncertainties and supply chain pressures.

We now expect to deliver FY2026 full-year performance in the following ranges:

- Revenue: £775m to £805m
- Adjusted profit before tax: £145m to £165m

We will provide an update on our revenue performance to 31 March 2026, as planned, on 6 May 2026.

About Renishaw

We are a world leading supplier of measuring and manufacturing systems. Our products give high accuracy and precision, gathering data to provide customers and end users with traceability and confidence in what they're making. This technology also helps our customers to innovate their products and processes. We are a global business, with customer-facing locations across our three sales regions; the Americas, EMEA, and APAC. Most of our R&D work takes place in the UK, with our largest manufacturing sites located in the UK, Ireland and India. Further information can be found at www.renishaw.com.
