2026 post-close trading update

Record Q4 revenue; FY2026 profit ahead of expectations

Renishaw plc today announces a post-close trading update for the 3 and 12 months ended 30 June 2026 ("Q4" and "FY2026" respectively) ahead of announcing its full year results on 23 September 2026.

We saw accelerating growth throughout the year, culminating in record quarterly revenue in Q4 of approximately £243m, 27% above the prior year and 18% above Q3. Demand remained strong from customers in the semiconductor and electronics manufacturing equipment sector, and from the aerospace and defence sector.

We expect FY2026 revenue to be approximately £815m, 14% higher than the prior year. All three segments delivered growth, with particularly strong progress for Specialised Technologies and Position Measurement.

We expect FY2026 adjusted operating profit to be approximately £152m and adjusted profit before tax to be approximately £167m, 31% above the prior year.

About Renishaw

We are a world leading supplier of measuring and manufacturing systems. Our products give high accuracy and precision, gathering data to provide customers and end users with traceability and confidence in what they are making. This technology also helps our customers to innovate their products and processes. We are a global business, with customer-facing locations across our three sales regions; the Americas, EMEA, and APAC. Most of our R&D work takes place in the UK, with our largest manufacturing sites located in the UK, Ireland and India. Further information can be found at www.renishaw.com.
