Think **work experience**; think Renishaw.

We have opportunities available for:

- Engineering placements - 96 places
- Software placements - 20 places
- Commercial placements - 15 spaces

Open to students from years 10 to 13

You will work as part of a team on a project and will present your product to senior management at the end of the week.

Quotes from students who have previously attended:

"Really good to do something on work experience that isn't just shadowing"

"Thank you so much for an interesting and educational work experience last week. It gave me a fantastic insight into the engineering industry"

What will I gain from my week at Renishaw?

- The opportunity to work in an innovative company
- Working on a team-based project
- Team building and team working skills
- Communication/interpersonal skills
- Working to deadlines/time management
- Logical thinking/problem solving
- Creativity
- Presentation skills

We offer 3 schemes:

Engineering

- Design and build a concept model
- Decide on your role in the team
- Learn about all the aspects involved in bringing a product to market
- Gain an understanding of a career in engineering

Software

- Operate as part of a software team
- Learn programming and network communications using Raspberry Pis
- Design and test your software to meet the brief

Commercial

- Explore different aspects of the commercial side of the business, including: HR, Finance, Marketing, Legal, Purchasing and Sales.
- Work on a business plan for your own team's project

Applications open in September 2020; work experience will take place in the weeks commencing the 5th and 12th of July 2021. To apply please visit: www.renishaw.com/careers
