

Verification Opinion

Verified as Satisfactory	
Based on the process and procedures conducted, there is no <i>(If Not Verified delete no)</i> evidence that the GHG statement contained in the GHG Report Renishaw GHG Report FY 2026 produced by Renishaw PLC:	- is not materially correct and is not a fair representation of GHG data and information. - has not been prepared in accordance with ISO14064-1:2018 and its principles
The following improvements were raised in relation to future reporting	DEFRA international rail factor used for all rail journeys - this will be conservative as will lead to slight over-report in domestic rail journeys
