|                   |                                                         |           |           |                  |               |                 |            |
|                   |                                                         |           |           |                  |               |                 |            |
|                   |                                                         |           |           |                  |               |                 |            |
|                   |                                                         |           |           |                  |               |                 |            |
|                   |                                                         |           |           |                  |               |                 |            |
|                   |                                                         |           |           |                  |               |                 |            |
|                   |                                                         |           |           |                  |               |                 |            |

**O:** 表示该有毒有害物质在该部件所有均质材料中的含量均在 GB/T 26572 标准规定的限量要求以下。  
**O:** Indicates that this toxic or hazardous substance contained in all of the homogeneous materials for this part is below the limit requirement in GB/T 26572.

**X:** 表示该有毒有害物质至少在该部件的某一均质材料中的含量超出 GB/T 26572 标准规定的限量要求。  
**X:** Indicates that this toxic or hazardous substance contained in at least one of the homogeneous materials used for this part is above the limit requirement in GB/T 26572.

备注: (Notes)

- 玻璃 / 陶瓷中的铅含量  
Lead in glass /ceramic
- 黄铜部件 / 接头中的铅含量  
Lead in brass components / connectors
