

Are you a 3shape user?

Zirconia
frameworks for less
than £10 / unit*

3shape

Boost your profits and reduce turn around times?

Connect to your very own Renishaw Dental Milling Machine and create zirconia crown and bridge frameworks, with an excellent fit, in 6 different shades.

The machine is identical to those used in Renishaw's in-house manufacturing facilities and can be up and running in just one day. Absolutely no prior experience necessary - full training and support included.

- Compact desktop design with built in dust extraction
- Rapid wax milling option
- Option to submit to Renishaw's central manufacturing

* material cost only
