MSPCC Release Notes

mspcc24057 - Add ability to convert ridders format to msr to ezLinkNC

ezLinkNC has been enhanced to allow the Siemens840d machine to be connected to. This is infact a file system connection which polls for a file.

mspcc24121 - Improve the ezLinkNC front screen layout

- Interface glitches have been fixed.
- Resize behaviour is better and useless error field removed.

mspcc24094 - Allow mspPathList::CheckAccess to work correctly if trailing / present

mspcc24117 - Final updates to ezLinkNC for BAE release
