

How to apply a licence to a DESkey dongle using the Dongle Manager

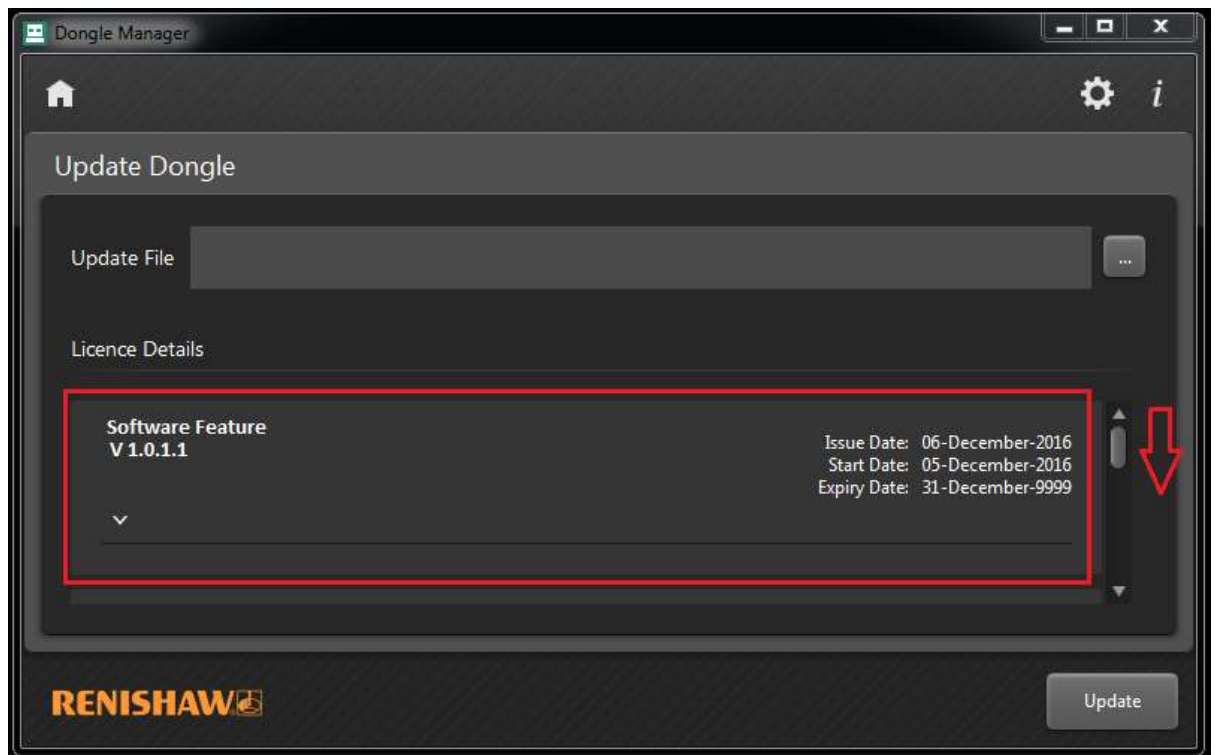

1. Run the Dongle Manager
2. Click the **Update Dongle** button:

3. Click the ellipsis button to browse to the licence file that you want to apply to the dongle:

4. A preview of the licence features being added is displayed:

5. Click **Update**
6. The application provides feedback on how the update went:
