

Upgrade brackets and blanking plates

www.renishaw.com/cmm

This leaflet details the bracket options available when upgrading or replacing Renishaw controllers and / or probe interfaces. By using a combination of the following brackets and / or blanking panels, any combination of existing and new Renishaw product can be mounted together inside a 19 inch cabinet rack. The bracket kits shown in this leaflet are supplied with all the necessary fixtures.

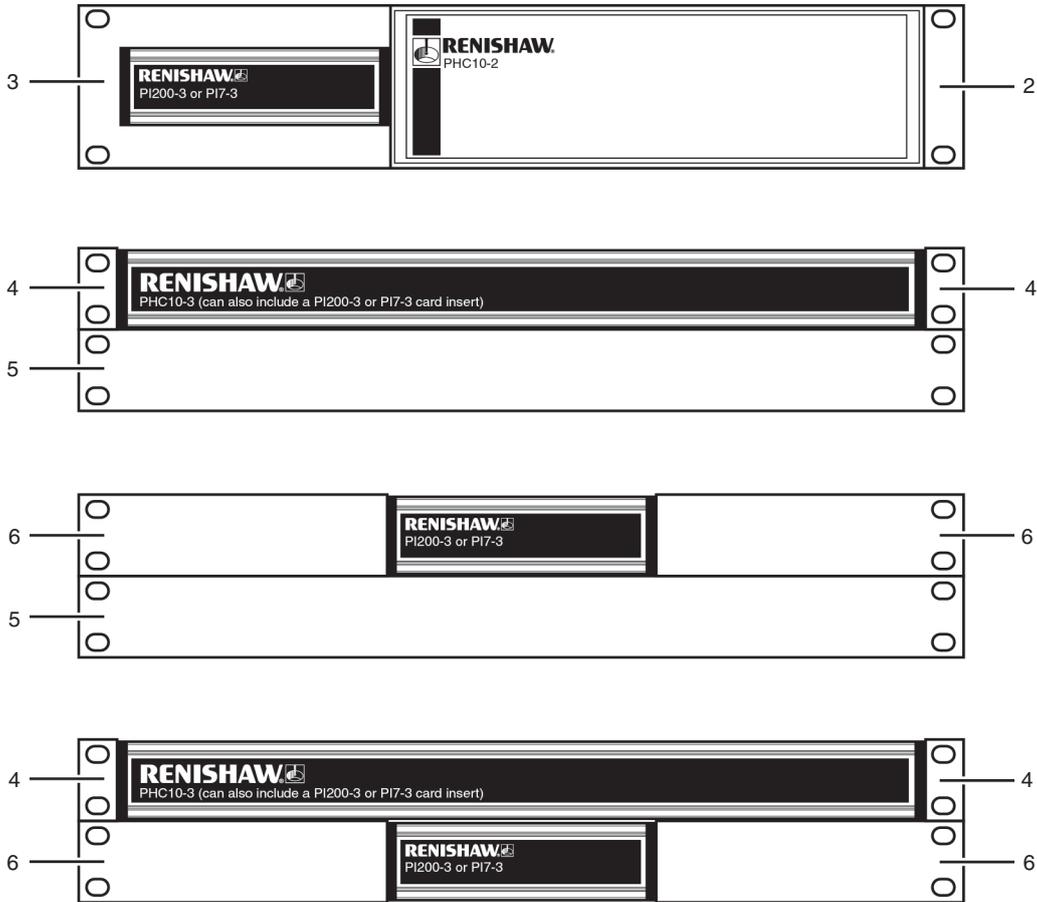

Configuration options for 2U high products
