Equator™ 500 quick start guide

7

8

9 ⚠ Each eyebolt supplied with the Equator 500 has been rated to a safe working load of 240Kg, and manufactured to DIN850. Renishaw only guarantee the integrity of the eye bolts supplied for the initial installation of the unit. Should you wish to use this equipment for subsequent lifts it is your responsibility to ensure it is inspected in accordance with local legislative requirements before use.
